YEDA-Leo Baeck School Celebrates the End of the Academic Year 2014-2015

On June 25, 2015, Kiryat Bialik Mayor Eli Dukorsky and Kiryat Bialik Superintendent of Education Ami Reuven joined the YEDA-Leo Baeck Kiryat Bialik School in celebrating the completion of the school's second year of operation.

At the ceremony, first and second grade students conducted a show about daily life in the school and the quality education they receive in terms of academics, values and character. Students also dramatized selections of Torah stories that they learned about this year. Students, parents, school staff and guests thoroughly enjoyed an incredible performance by the school choir.

The PTA Chairman thanked the school principal and teaching staff. The Kiryat Bialik Superintendent of Education remarked on the incredible success of the school after only two years in operation and how it has already joined ranks as one of the best elementary schools in the City.

A week before the school event, four of YEDA's 2nd graders were honored at a large ceremony hosted by the City, during which Mayor Dukorsky presented Kiryat Bialik elementary school children with certificates of excellence and merit for social activities, community service, contribution to classroom social life, and academic excellence.

On July 1st, we will commence our summer school program for all YEDA-Kiryat Bialik students.

Thank you for making this school year possible and for helping us to break the myth that "demography defines destiny."
